

20,000 Leagues Under the Sea (with the original illustrations by Alphonse de Neuville)

Twenty Thousand (20,000) Leagues Under the Sea (French: *Vingt mille lieues sous les mers*) is a classic science fiction novel by French writer Jules Verne published in 1870. It tells the story of Captain Nemo and his submarine *Nautilus* as seen from the perspective of Professor Pierre Aronnax. As the story begins in 1866, a mysterious sea monster, theorized by some to be a giant narwhal, is sighted by ships of several nations; an ocean liner is also damaged by the creature. The United States government finally assembles an expedition in New York City to track down and destroy the menace. Professor Pierre Aronnax, a noted French marine biologist and narrator of the story, who happens to be in New York at the time and is a recognized expert in his field, is issued a last-minute invitation to join the expedition, and he accepts. This ebook edition contains all 70 original illustrations by Alphonse de Neuville and Edouard Riou.
