

## Angelic Verses

This is an account of the biblical story as witnessed through the actions of angels. All of the appearances of angels in both Testaments of the Christian Bible have been listed with brief but insightful comments to give context to the biblical quotations where necessary. It will be apparent that angels appear at almost all the important events in the Bible. The main exceptions being when the Ten Commandments were given to Moses on Mount Sinai and the other omission is any reference to angels attending the Ark of the Covenant. The book chronicles a new and interesting perspective on the interpretation of the Bible. And besides the novel angelic viewpoint, it is beautifully illustrated with reproductions of some of the great paintings of the world that feature angels.
