

About Habitats: Polar Regions

The latest book in this acclaimed series explores the major attributes of the Arctic and Antarctic biomes and showcases the striking beauty and remarkable diversity of these regions. Award-winning author Cathryn Sill and her husband, noted wildlife illustrator John Sill, offer young readers a first glimpse into polar regions. In simple, easy-to-understand language, this guide teaches children what the polar regions are and what kinds of animals and plants live there. A glossary and afterword provide readers with further fascinating details.
