

# Hollywood Brat

Hollywood Brat does for the sixties and seventies what *The Catcher in the Rye* did for the previous two decades coldly, cynically, lovingly looks at the same life everyone else is seeing ... and show it for the first time. With a remarkable gift for seeing life through the eyes of a four-year-old, an eight-year-old, a problem pre-teen, and so on, Nick James in this title places the reader where he or she never wants to be again yet cannot resist going inside the mind of the challenged, frustrated, tantrum-throwing child. With the filmmaker's gift for imagery, narrative flow, and language, James has created in this book something much different from either the self-serving celebrity bio or the transparently commercial Hollywood tell-all. It is a penetrating look at childhood that just happens to take place in everyone else's dream land of Hollywood, where everyone else's stars are for James the plain, often disappointing regular people who populate the world of an ordinary child troubled with depression.

Acting for America: Movie Stars of the 1980s - Google Books Result HOLLYWOOD, Calif.
