

# Astronomy Lab for Kids: 52 Family-Friendly Activities (Hands-On Family)

Introduce your children to the wonders of the galaxy in a fun, hands on way! It can be hard to explain and understand what lies beyond what you see in the beautiful night sky. Astronomy Lab for Kids teaches children the basics of outer space in 52 lessons that can be done with everyday items from around your house. Mini astronomers will learn about things such as the size and scale of planets using sandwich cookies and tennis balls, how to measure the speed of light with a flat candy bar and a microwave, how to make a simple telescope with magnifying glasses, and so much more! Children of all ages and experience levels can be guided by adults and will enjoy these engaging exercises.
