

This title, endorsed by the World Wildlife Fund, shows the fascinating life cycle of a gorilla. Follow a baby mountain gorilla as it takes its first steps on its journey through life in Africa's Volcanoes National Park. Join the young gorilla as it learns to find its favourite foods and to build its own night-nest to sleep in. Meet some of the other animals that share the gorillas' mountain habitat, and find out about the threats facing gorillas and what can be done to protect these gentle giants. This title should be useful for Key Stage 2 science study of life and living processes.
