

Hypnotic Persuasion: Persuade Anyone To Do What You Want Using Conversational Hypnosis and NLP Techniques

Ive been number 1, more than once. Ive been at the top; Ive been at the bottom; Ive been at the bounce. One thing I can teach you before you even open this book is that its far better being at the top, than it is being at the bottom. As a hypnosis and NLP trainer, over at Indirect Knowledge Limited, I have seen outstanding transformations happening in the lives of the students I teach. Ive seen people go from being green in sales to earning green in sales. Ive helped people learn the fine art of hypnotic persuasion and have myself been emotionally affected by the shifts in excellence and attitudes happening when new students make their first value-driven sale, and do it as if they were born to do it. Thats what I do. I make people winners. I do this every day, and Im proud to help. Im just one cog in the wheel over at Indirect Knowledge Limited, but I like to think that my knowledge and expertise is just as valuable as the next persons. All in all, we are a team of experts, driven by the mission that when people learn well, they live well. Im proud to stand by that mission and proud to be a part of something brilliant. After you read this book youll learn a thing or two about a thing or two, I promise you that. More importantly though, when you implement what Im about to teach you, you will start to see how it all makes sense and how it works magnificently to make your success instantaneous. Thats results! When I get done with you youll be a different person. This I know. GRAB YOUR COPY NOW!
