Winner of: Parents Choice Gold Award  
Throughout history birds have caught the imagination of composers and inspired their creativity, and this selection of works by Mozart, Tchaikovsky, Vivaldi, and others introduces children to classical music through the discovery of the melodious similarities between notes produced by instruments such as the flute, the organ, and the harpsichord and the birds songs. In addition to lovely illustrations, the book features a glossary of musical terms, a short biography of each composer, and a brief description of each bird evoked or mentioned in the composition. The accompanying CD offers excerpts of 20 different recordings ranging from The Goldfinch, Hens and Roosters, and The Dance of the Swans to The Cuckoo and the Nightingale, Piano Concerto N, and Dance of the Firebird performed by world-class luminaries including the London Symphony Orchestra, the Moscow Radio Symphony Orchestra, and the Toronto Chamber Orchestra.
