

My New Best Friend, Living Well with CML, Gleevac and its Side Effects by Ute Buehler is a health guide for sufferers of Chronic Myeloid Leukemia who use Gleevac to fight it. Join Ute on her journey as she struggles with day-to-day issues. Her approach is direct, strong, and very personal as she reveals the effects of this particular best friend. Utes positive, well-researched information will help all patients. Ute has focused on Gleevac, also called Imatinib, to tell her readers about it and its side effects. Throughout the book, her personality sparkles through, her faith inspires, and her joie de vivre is infectious. The photographs, quotes, and added information at the end of the book amplify her message. I would recommend this book to anyone who has been diagnosed with cancer - Mary Joan Meagher, Author and Poet.
