

Legend of the White Wolf (Tweener Press Adventure Series #7)

It all began when Brian discovered a white wolf pup caught in a trap and set it free. Since then, Brian was convinced that he and the wolf were brothers. Stung by the disbelief of his family and friends, Brian sets out to confirm the story and ends up getting a lot more than he bargained for. It is bad enough that he is caught out in a snowstorm and attacked by a mountain lion, but when a group of lawless hunters begins killing off the wolf population, the situation reaches a critical point.
