

The End Is Always Nigh: The failed prophecies of the Watchtower Bible and Tract Society.

For well over a century the Watchtower Society has published a steady and unbroken stream of predictions that the end of this world is nigh - that Armageddon is upon us. Exactly when Armageddon will come has obsessed the Society since the first Watchtower appeared in July 1879. This book provides a reference to the original Watchtower material for all the times that it didn't. It has been collated in order to show what the Society has actually said, rather than what it itself claims it has said (or claims not to have said).
