

Rat Bastards: The South Boston Irish Mobster Who Took the Rap When Everyone Else Ran

John Red Shea, 40, was a top lieutenant in the South Boston Irish mob run, led by James Whitey Bulger. An icecold enforcer with a redhot temper, Shea was a legend among his peers in the 1990s South Boston, as much as John Gotti, Bugsy Siegel, and Al Capone were in their time and place. When the actor and producer Mark Wahlberg, raised in nearby Dorchester, learned of a script based on Sheas life circulating in Hollywood, he immediately committed to playing the gangster on screen. A major feature film project is now in development. From the age of thirteen, when he started robbing delivery trucks, to the age of twentyseven, when he began serving a twelveyear federal sentence for drug trafficking, Shea was a portrait in American crime a bantamweight, redheaded terror, brutal with his fists and deadly with a lead pipe, a baseball bat, or a knife. At fifteen he was selling marijuana . At seventeen he was handling Bulgers cocaine. At eighteen he was loan sharking and laundering Bulgers money. At twenty, initiated into Bulgers inner circle at the point of an Uzi, he was running a multimilliondollar narcotics operation for his mentor. RAT BASTARDS was the firstever, firsthand account of mob life that wasnt told by a rat. Red Shea did his crime, then did his timeand never informed, unlike Henry Hill of Wiseguy, Sammy The Bull Gravano of Underboss, and so many others. Holding fast to the code of his upbringing, he remained a man of honor.
