

ISO 6469-1:2001, Electric road vehicles - Safety specifications - Part 1: On-board electrical energy storage

This part of ISO 6469 specifies requirements for the on-board electrochemical storage of energy for the propulsion of exclusively battery-powered electric road vehicles (passenger cars and light commercial vehicles) for the purpose of protecting persons and the vehicle environment. It is applicable only if the maximum working voltage of the on-board electrical circuit is lower than 1000 V a.c., or 1500 V d.c. or lower, according to national standards or regulations (e.g. for qualification of service personnel). It does not necessarily apply to assembly, maintenance and repair of these vehicles. This title may contain less than 24 pages of technical content.

ISO 6469-1:2009(en), Electrically propelled road vehicles Safety Part 1: On-board rechargeable energy storage system (RESS) Part 3: Protection of persons against electric shock ISO 6469-1, Electrically propelled road vehicles Safety specifications Part 1: On-board rechargeable energy storage ISO 6469-1:2001 Electric road vehicles - Safety spec SAI Global Electrically propelled road vehicles Safety specifications . Part 1: On-board rechargeable energy storage system (RESS) .. This second edition cancels and replaces the first edition (ISO 6469-1:2001), which has been technically hybrid electric vehicles (HEVs), for the protection of persons inside and ISO 6469-4:2015(en), Electrically propelled road vehicles Safety basically an electric vehicle, on which relevant electric vehicle standards by ISO, who considered the fuel cell system as a black box delivering of fuel cell systems into road vehicles the activities would be integrated in the existing SC21 .. vehicles - Safety specifications - Part 1: On-board electrical energy storage. ISO/TC 22/SC 37 - Electrically propelled vehicles Electric road vehicles -- Safety specifications -- Part 1: On-board electrical energy storage. This standard has been revised by ISO 6469-1:2009. ISO 6469-3:2011(en), Electrically propelled road vehicles Safety basically an electric vehicle, on which relevant electric vehicle standards by ISO, who considered the fuel cell system as a black box delivering of fuel cell systems into road vehicles the activities would be integrated in the existing SC21 .. vehicles - Safety specifications - Part 1: On-board electrical energy storage. ISO 6469-2:2009 - Electrically propelled road vehicles -- Safety This part of ISO 6469 specifies requirements for the on-board BS ISO 6469-1: 2009 Electrically propelled road vehicles - Safety specifications - Part 1: On-board rechargeable energy storage system (RESS) (ISO 6469-1: 2009) the first edition (ISO 6469-1:2001), which has been technically revised. 18. Standardization in Electric Vehicles Electrically propelled road vehicles Safety specifications . Part 3: Protection of persons against electric shock. (ISO 6469?3:2011, IDT) .. Safety specifications: - Part 1: On-board rechargeable energy storage system (RESS).
