

TrAC Directory of Capillary Electrophoresis: TrAC Supplement No. 1

Containing over 450 V.I.P.s Worldwide Including Complete Addresses, Fax and Phone Numbers, and E-Mail Addresses (where available) Giving Many Techniques, Applications and Research Topics Providing an Extensive Subject Index This directory of researchers in capillary electrophoresis not only contains the names and addresses of most leading scientists in this rapidly developing field, it also specifies their main interests in developing and/or applying the technique. Additionally, the papers in this area that each listed scientist considers as his or her most significant contribution are given. A geographical index with techniques and application areas shows who is doing what in each country. Instrument manufacturers and suppliers are given on a country by country basis, along with the products or services they offer. A subject index is also included which lists scientists alphabetically according to their individual specialities. The editors have endeavoured to collect together, in this one source, information on whos who and the major research trends in the field of capillary electrophoresis. This directory forms an integral part of the 1993 subscription to the Library Edition of Trends in Analytical Chemistry (TrAC) and is also available as a separate publication.
